8 doctors out of every 10 advised the Nujol type of treatment

DOCTORS from coast to coast were recently asked whether they advised the Nujol type of constipation treatment to their patients, 80.7% answered "Yes". tients. 80.7% answered "Ye".
64% condemnet the continued use of laxatives and
autharities. One doctor said,
"An aimost incalculable
amount of injury is done by
these intestinal fritants,
most of which provide temporary relief, only as the cost
of permanen; injury. Jaxatives being on the laxative
habit."

Doctors Advise Nujoi
Nine doctors out of every ten
told us they were advising the
Nujol type of treatment for
their patients in place of lazatives—and for these reasons:

1. Nujol is not habit-forming:
2. A more natural method;
3. A lubricant is better than
a inxative; 4. Does not aribe;
Nujoi gives Jasting relief.

Unlike Laxatives Laxatives and cathartics act by irritating the intes-tinal tract. They cause

the bowels to frantically ex-sept the contents of the intes-tines and thus rid the system of the drugs that pills and portions contain. Nujel acre entirely differently. It contains no drugs, no medicine. It contains no drugs, no medicine, the actives the dried waste matter in the interactions and lubricists; the passage on the other contains and property of the system matter regularly, naturally and the cought.

Because

according to the highest authorities, food made with alum baking powder, besides being unwholesome, is apt to have a bitter taste.

That's why

Magic Baking Powder "contains no alum"

Food made with "Magic" is always, white and light and wholesome and never has that bitter alum taste. Insist on getting the genuine Magic Baking Powder. It contains only the finest grades of phosphate, starch and soda, expertly blended.

The New Two-Toned DRESSES

That Will Bloom With the Spring

Just unpacked and hung up a most faschiating lot of new frocks from one of the best manufacturers. You won't see duplicates of these models. The most striking feature about them is the way the new "compose" combination—idea is carried out.

Combinations of colors, of tones of one color, of fabrics. Pleats, rayed tucks and embroidery add to their attractiveness. Two-piece styles predominate. There are many ties and belts. Materials are fall crops, georgette, with some sport, frocks of wool crope and frickine.

L'axatives are dangerous said 3/3 of the doctors

RECENTLY we asked doctors, all over the country, the proper treatment for consti-pation. Two-thirds condemned the continued use of laxa-tives and catharties. More than three-quarters favored the Nujol type of treatment.

No one knows better than the doctor the greater salety of the gentle lubricant. As one doctor said, "It is the most natural aid to normal activity of the bowels. The trouble with luxatives is that they irritate and stimulate the digestive tract too much. Laxatives bring on the laxative habit."

Doctors Advise Nujul

Doctors Adules (Nijal Mine doctors active feet per total us they were advising the Nijol type of treatment for their patients in placeof laxative—and for these reasons: 1. Nijol is not habit-forming: 2. A more natural næthod; 3. A lubricant is better than a laxative; 4. Does not gripe; 5. Is not livritating; and 6. Nijol gives lasting relief.

Unlike Laxatives Laxatives and catharties act by irritating the intes-tinal tract. They cause the bowels to frantically ex-pel the contents of the intes-tines and thus rid the system of the drugs that pills and potions contain.

T. CHARLES

potions contain.

Nujol acts entirely differently, le containance drugs, no medicine. Its action is mechanical. It merely softens the dried waste matter in the Intentions and Jubricates the passage so that the mureles of the bowels can easy! the waste matter.

Nature-given Remedy Nuiol appeals to the medical man because it is a simple, scientific and safe remedy for constitution, no matter how severe the casemay be-it in gentle in its action and pleas-ant to take. Children love it.

The Ford Hot Plate Vaporizer is the most advanced improvement on the Ford engine in the last nineteen years. It produces a per-fect fuel mixture which burns to the last atom because it is com-pletely vaporized.

The Ford Hot Plate Vaporizer Gives these Advantages

More even distribution of fuel to the cylinders af-fords smoother perform-ance.

Crank case dilution is eliminated.

Better cold weather per-formance and easier starting.

1—Gasoline burns more readily and completely,
2—More even distribution of in engine performance.

in engine performance.
6—Greater power and more mileage per gallon.
7—One setting of carbuetor is sufficient for all weather and driving conditions. Greater flexibility, partic-ularly at low engine speeds.

IMPORTANT: Present owners of Ford cars and trucks can have the Ford Hot Plate Vaporizer installed by their Authorized Ford

Wanted! 15,000 Sufferers from Head Noises or Nasal Catarrh

ME STORY PA

I want the names of 15,000 people who are suffering from catarrhal deafness, dullness of hearing or head noises. I have an original home treatment for these distressing conditions which I want you to try without cost or expense. I suffered for many years with catarrh, deafness and head noises, tried many different treatments.

Had two surgical operations all of which failed to give permanent relief. I began experimenting on myself and finally found a treatment which completely healed my catarrh, restored my hearing and stopped the terrible head noises. I want you to try this splendid treatment entirely at my own expense.

15,000 Treatments I am proud of my restuners and so autous to his place of the solid his place of

"GLASSES A GREAT BOON"

stated A. D. Prangen M.D., of the Mayo Bros. Eve Clinic, in a recent public lecture, in which he said: "The health of the Eye and the welfare of the Body, particularly the nervous system, are aided in a great many people by Properly Fitted Classes. 'Glasses are a great boon to civilized mankind.'

Countles headaches are avoided and the strain of the days labor is lessen ed by their use. All child ren between the ages of five and eight years, ahould be examined to see that their eyes are working properly. If glasses are needed they should be put on at once, to avoid trouble later. Among the children the ones that are cross-eyed, particularly need early attention. They should be attended to just as soon, as it is not-iced that their eyes are

If treatment is delayed in these children, it will then be too late, and usually one, partly blinded eye will be the result There is an idea prevalent There is an idea provalent that children will out grow Cross-eyedness, but this is not so. The young er they cross, the sooner they should be attended

Our own experience agrees with the above statements, but we statements, but we thought such information and advice, coming from so eminent a source, might have more weight than if only stated by ourselves. We make a specialty of children's eyes.

THE GREATEST YEAR IN THE HISTORY OF

ESTABLISHED 1889

The Duninion Life recred is use of schierement. Established thirty-eight years ago, the strong, secure rossition occupied by this all-Canadian company is wholly due to sound administration, the loyal support of thousands of policyholders and their-pissing cooperation of a capable field and houre office foces.

hore office force.

The Dominion Life succeeds as the Dominion of Canada advance. The interests of the company and the country are interlocking and inseparable. In years of depression, the prection of a noon insurance company provides financial/support; in days of prosperity, the insurance company conditions of the constructive force in the community.

Our Belleville Office F R. BRASON,

INCREASED BUSINESS, GREATER PROFITS FOR POLICYHOLDERS, INCREASES IN ASSETS AND RESERVES

1926 A YEAR OF ACHIEVEMENT

As Seen by The Thirty-Eighth Annual Statement PRESENTED to the Policyholders and Sharcholders of The Dominion Life Assurance Company at the Annual Meeting held on February IIIs, for the year ending December 31st, 1926.

Business in Force - \$93,879,207.00 An Increase of \$12,000,000.

New Business, 1926 \$23,206,076.00 An Increase of \$4,000,000 over 1925.

Total Assets - - - \$15,838,610.47

Total Reserves - - \$11,785,894.00 Premium Income, 1926 \$ 3,157,312,72

Dominion Life interest carnings for 1926 had the high average of 6,95% on every dollar invested. The death rate or mortality for the year was very low, being only 32,49% of that expected. The results of this highly favorable experience are to be seen in the still larger profits to be paid to Dominion Life policyholdere during 1927.

Devoted to those ideals which have been at the very roots of Canadian progress, the company looks forward to the future as an opportunity for greater service, confident that the present era of development is full of glowing promise to the country and its varied enterprises.

Unparalleled Public Acceptance Shows a World's Confidence in Chrysler Standardized Quality

Three years ago the Chrysler was a new car, ranking 27th in the industry according to 1924 production.

Today, with a sales record of more than 170,000 cars during 1926, for an aggregate 250 milliosof dollars, Chrysler occupies fourth place in the industry having passed 23 other cars in volume of world sales.

This surpassing sales record— the most phenomenal that the industry has ever known—is

Not only America, but all the world has discovered in Chry-aler—"50", "60", "70" and im-perial "88"—an unprecedented soundness of value.

For the unique engineering and manufacturing plan of Chrysler Standardized Quality gives a superiority of performance, dependability, long life, economy, safety, handling and riding, which other cars in the Chrysler price range of *1055*. have never before

Europe Inspired It-Dietrich Designed It Studebaker Built It-Paris Approves It

Now All Belleville Can See It

AT the 20th International Motor Exhibi-tion at the Grand Palais in Paris, Europe saw the Erskine Six for the first time. Over night it was acclaimed the hit of the Paris Show!

Paris Show!

The press called it the "Clou du Salon!" The man in the street and the man of uffuir—designers of cars and designers of the Paris mode —everybody detacted the Enklathon the contenting thump be to the content of the con

People over there want modishness and insist upon upkeep economy. Motorists over here are welcoming both as a new order in car own-ership. The Erskine Six was built for both markets, for it sells for less than \$1300 at the Walkerville, Ontario, factory.

But don't look for any signs of economy its appearance—because Dietrich designed it! And don't be afraid that economy has impaired the quality—because Studebaker built it!

the quality—because Studebaker batts till.

The Erakine Six is a newcomer as a car, but it's built and backed by an old-timer in the industry and has been perfected by extreme road tests on Studebaker's million dollar proving

It is only 5 feet 7½ inches in height—yet it affords ample clearance for Madame's chapeau. Wherever you look at this low-swung, wide-windowed, full-vision steel body, you will find visible evidence of the creative genius which is Dietrich!

Outside, the close-hauled beauty of the Paris mode-and inside, the relaxation and comforts of home!

And what a car to get about in!

Easy to Handle Nimble enough to turn in an 18-foot radius —powerful enough to take an 11% grade with-out shifting gears—fast enough to skim over the highway at 60 miles per hour—and smart enough to be an ornament as well as an auto-mobile.

Build Strength In Place of Weakness

Perhaps you are one of many who are convalescing after a troublesome cold or cough or possibly grippe and find that your strength is at rather low ebb.

At such times it is all important that you be well-nourished, and nothing quite equals pure, emulsified cod-liver oil to help build strength in place of weakness.

SCOTT'S EMULSION

OF PURE VITAMIN-TESTED COD-LIVER OIL

is the effective means that thousands use daily to help reis the effective means that mousands use daily to help re-establish health and vigor. Containing as it does a wealth of health-promoting cod-jiver oil vitamins it is the very help the weakened body needs.

If you are convalencing from a cold, cough, grippe or other respiratory infection—we strongly recommend the regular use of Scott's Emulsion for at least thirty days.

People no longer keep Address Books. At one time almost everyone did. Now, at almost every desk — in all the alert homes — you find them using the Telephone Directory instead. Organized effort has supplanted the work of the individual.

Changes in names and addresses are going on constantly. About 40,000 new names are added in Ontario and Quebee every six months. Our records are revised from day to day. Infinite pains are taken to guard against error.

Over 1,300,000 Bell Telephone direc-tories are published every year. No other publication gives you such complete and so-often-revised infor-

Fisher Built-Canadian Built -Better Built

Wherever motor cars are known, "Body by Fisher"

is a warrant of excellence.

It bespeaks not only beauty, not only smartness and distinction, not only luxury, but thorough and distinction, not or structural superiority.

It is known for soundness and balance founded upon the skillful combination of wood and steel: upon the samul combination of wood and steel; for feature after feature of comfort and conveni-ence; for distinguished appointments; for lustrous Duco finishes in tasteful color harmonies; for sub-tle touches of artistry and refinement that reveal the master designer and the master craftsman,

And wherever Canadian-built Fisher Bodies are known, they have added even greater prestige to that famous name. For here those standards of quality are better materials . . . Canadian materials

With better lumber . . . Canadian lumber-With better upholstery . . . from Canadian

With better workmanship ... Canadian crafts-

With better finish . . . Canadian-made Duco.

Fisher-built—Canadián built—Better built—these bodies on General Motors of Canada cars pre-sent, in addition to their inherent safety and solidity, authenticity of style and commanding beauty, regardless of the price class of the car.

Onsult an Expert Who knows more about the value of life insurance than a bereaved wife? Ask her what life insurance means! All too often husbands and wives in the heyday of life become blinded to the future by present favorable circumstances and good health. This frequently results in one of life's greatest tragedies — mothers and children left alone to face a world they never knew. It's all the more pitiable since life insurance protection can be secured so easily and at such low cost from The London Life. Example of "Earning Power" Series, 20 Year Term with special Inter-change Privilege. \$10,000 Insur Age 25 Age 35 Age 45 \$ 94.50 \$122.00 \$208.00 If you are tempted to postpone the taking of adequate life insurance protection think twice and consult an expert. S. carly as 1813, Quebec-built and sent out the first Atlantic steamship, the Royal William, which reached London from Quebec in twenty-five days. This was four years before any other ship succeeded in equalling this feat.

The men of the Maritimes had already won a reputation for good seamanship with their sailing vessels, and Montreal and Three Rivers had contributed their share of adventure on the sea.

The Allans, in the meantime, had established a Montreal; and in 1852 built the steamships Canadian and Indian, of about 1700 tons gross, with engines of 350 h.p.

At the time of Confederation, the Allan Line, now incorporated in the Canadian Pacific Steamships,

was running a regular and dependable service from Montreal and Quebec to the Old Country, and was the popular Canadian line of its time.
The Scandinavian, pictured above, typical of the ships of that period, was built in 1870, of over 3000 tons, with 500 h.p. engines.

Such, in brief, were the beginnings of a trade which, through Canadian foresight and enterprise, now spans the world. Canada's reputation for fine scannanship has been maintained and enhanced by the Canadian Pacific, with its fleet of ocean and coastal steamships totalling 410,644
tons. The Empresses of the Atlantic and of the Pacific have become synonymous with safety, comfort and speed, On their Winter Cruises to various arts of the world, whole shiploads of passengers parts of the world, whose surpresses at a time.

Now Standard Equipment The Ford Hot Plate Vaporizer is the most advanced improvement on the Ford engine in the last nineteen years. It produces a perfect fuel mixture which burns to the last atom because it is completely vaporized.

The Ford Hot Plate Vaporizer

Gives these Advantages

5 Even when low grade fuel is burned a remarkable improvement is ob-tained in engine performance.

More even distribution of fuel to the cylinders affords smoother performance.

Crank case dilution is eliminated.

4 Better cold weather performance 8 Greater flexibility, particularly at low engine speeds.

IMPORTANT: Present owners of Ford cars and trucks can have the Ford Hot Plate Vaporiter installed by their Authorized Ford Dealer.

The Value of Human Life at all Ages

"Broke"but worth \$79.100

Dad earns \$50 a week. He has just paid the rent, the grocery bill and milk bill. He says he is "broke, but happy"... In reality, he and his family are worth a small fortune This Canadian family represents \$79,100 of the nation's

LMOST any man will agree that his life is more valuable to himself than the things he owns. Now he can have the comfort of knowing how able his life is to others—from a dollarand-cents standpoint.

Today it is known that the lives of our men, women and children are the nation's rentest asset. The economic value of all of our material weather the completely overshadows the alue of all of our material wealth.

Recent computations made by statisticians of the Metropolitan Life Insurance Company, show the real economic value of the lives of our people from babyhood to old ago. These figures are based on the average aga. These figures are based on the average family with an average income — and take into consideration the average length of lifetof each member of the family, to-gether with the cost of bringing children into the world, feeding them, clothing them, educating them and bringing them up to a self-supporting basis:

Long lives and short lives - small incomes and big incomes - are reckoned incomes and big incomes—are reckoned in these calculations. At 40, a man carning \$100.a week is rated as having an economic value of \$45,670. At 30, the \$50.a.week man represents a value of \$31,000. "He had a value of \$9,333 the day he was born.

- And then come the figures showing the —And then come the ngures snowing the total economic value of all the men, women and children of North America tounding total of 1,500 billion dollars (\$1.500.000.000.000).

"If you wish to find out how much each member of you mily is worth, economically, send for a booklet recently prepared by the Metropolitan Life Insurance Company—it tells have a person of any age may measure the economical walus of his or her life. It will be mailed free.

Perhaps the easiest way to realize this stupendous figure is to compare it with the total value of the entire material wealth of Canada and the United States.

The latest available government reports show that everything we own—land, buildings, railroads, mines, raw, materials, manufactured products, crops, live stock manufactured products, crops, two stock — everything included — was close to 400 billions... Our lives are worth nearly five times as much as our property.

North America can well be proud of the additional insurance placed on the valuable lives of her people in 1926. More than 16 billion dollars (\$16,000,000,000) was written and revived during the year by about 300 life insurance companies making the total amount of life insurance in force approximately 80 billion dollars (\$80,000,000,000). About one sixth of the grand total is carried by the Metropolitan.

But while the people carry 80 billion dollars of life insurance - or only one twentieth of the economic value of their lives - they carry more than 160 billions of insurance on property - more than one-

You would not insure a \$5,000 house for 250 — one twentieth of its value. You insure it adequately. But have you insured yourself adequately? Send for the booklet which tells you what you are worth. Study it. Then decide whether or not you carry enough insurance to protect your family.

The Super-Six Principle also revealed in the

An outstanding characteristic of the Essex Super-Six is the complete absence of labor with which it performs every requirement.

At the getaway you swing into speed with magic case. There is no jerk, wibrition or mechanical chatter, no waste motion, no explosive jump—sometimes mistaken for acceleration. You glide to the front with flying freedom and ease. And so smoothly, you scarce realize how swiftly:

And, so, in all it does, whether spurting at top speed, or doing a comfortable fifty miles an hour all day long, you can realize its silky super-perfermance,

only by the way you distance oth only by the way you distance often. This smoothness means ECONOMY—
economy of effort, economy of power,
economy in the long life of all moving
parts. And in making long tours, or using
parts. And in making long tours, or using
parts. And in making long tours, or using
parts. East all day in city traffic you will
find the further economy of physical frealtimes, that cromes from its easy driving, ridling, steering and control, and in freedom
from vibration at all speeds.

In four beautiful new Essex bodies—hand-somely appointed and upholstered—the advantages of the released Super-Six prin-ciple costs you little more than any "Four".
